Ted Roefs
Michael
Consultant Support- Don Wagenet
Consultants at large : Jeff Kishel, Dave Fullerton

The teams are tasked with picking the five best alternatives addressing their conflict area from the 30 combined themes - single conflict alternatives that were developed by the consultant teams (copy attached). Each of the five will be improved, balanced, and refined by combining them with individual actions or one of the single theme/single conflict alternatives (copy attached). The five balanced alternatives should be written up in the same format as that of the consultant team alternatives (the consultant support person can be assigned this task).

We are asking that the team leader take the initiative to contact the other team members and to enlist the support of the consultant team to set up work sessions and to produce a draft final by the PT meeting on Monday, January 8. Please be prepared to discuss your alternatives informally at the meeting on January 2nd and to elicit PT input at that time.

I have attached copies of the following for your use:

- Single theme/single conflict area alternatives
- Thirty combined theme/single conflict area alternatives
- Four example balanced alternatives
- Rational for Core Actions and Narrative Discussion of Each Core Action
