• Riparian needs to be increased
• delete 20-30,000 A of SW
• Beef up 4 grassland.

Stewart Tract - Gold Rush Ct
Mtn House -

(1)

P2/3/97

500,000 - primary zone
750,000 entire Δ

(450,000 - ag in primary zone)

• Check Acreage of improving seasonal wetlands in C/W

• egeria densa

• Impacts to ~~the~~ of recreation depending on where habitat is built
• good in NW Delta - low conflict w/ recreation

• Concerned about cumulative Impacts on agriculture

• Margit isn't clear how much effort is on land conversion, ≠ versus water quality, entrainment, toxics, food webs, what's first? - how is it sequenced

• Concerned about Exotics

• Terry - talked about Diagnosis
- we've screened 75% of water off of Sacramento River
- Iron Mtn Mine - under control

*• Prospect Island - ag loss
