CALFED BAY-DELTA PROGRAM

Office Memorandum

Date: January 18, 1996
To: Lester A. Snow
From: Steve Yaeger 
Subject: Related Components for Alternatives

There are several issues that need to be addressed somehow in the alternatives:

1. Flooding in the North Delta.
2. San Joaquin County water needs.
3. Providing recreational access which protects levee improvements and habitat restoration.
4. Others.

I believe that we need a separate category of action/alternatives to place these elements into so that they do not fall through the cracks and can be incorporated in the appropriate fashion once the short list of alternatives is forged.
