

April 2, 1997

ECOSYSTEM RESTORATION PROGRAM PLAN WORKSHOP

SPECIAL NOTICE

The Working Draft of the CALFED Ecosystem Restoration Program Plan (ERPP) will not be completed in time for our April 8, 1997 Workshop. The document is too complex, too comprehensive, and too sensitive to risk misinterpretation as a result of incomplete editing and internal review.

CALFED will release an Executive Summary of the ERPP at the workshop. The Summary contains the logic behind the Program and extensive tables containing the implementation objectives and targets for each of the 14 ecological zones. The Executive Summary will provide you with a complete picture of the breadth and magnitude of the Ecosystem Restoration Program.

In May, we will announce the availability of the full Plan. In the meantime, we hope you will attend the workshop on April 8, 1997 at the Beverly Garland Hotel starting at 8:30 a.m. We will discuss the scope and context of the ERPP and will distribute the Executive Summary.

We hope this change in schedule does not cause you any inconvenience. We remain committed to developing a quality Plan and we will provide you with at least 45 days to review the Draft when it is ready.

If you have any questions, please contact Dick Daniel at (916) 657-2666.
