Dear Executive Director Snow:

I am writing to request that CalFed extend the comment period for the Draft Programmatic EIS/EIR by 75 days. Given the breadth and complexity of the issues addressed in the CalFed process and the length of the document, I believe that the current comment period is unrealistic. The decisions and program implementation resulting from this phase will profoundly impact our environment and our future into the next century. I further request that you extend the timeline for the entire CalFed process to accommodate a longer public comment period. The current timeline doesn't allow for the average citizen or interested groups time to read and prepare comments on the document. Please respond as soon as possible. Thank you for considering my request.

Sincerely,
