Sacramento, CA 95814

Dear Mr. Snow:

This letter is to beg you not to even consider constructions of new or enlarged dams and canals for the CALFED Bay-Delta Program.

We certainly do support your restoration objectives for Central Valley stream flows.

We would hope that CALFED would urge all Californian business and consumers to be more efficient in the use of water, using conservation and reclamation processes instead of building dams.

Our family is totally opposed to the proposed forest management which would increase logging. This does not help either wildfires or wildlife.

Thank you for giving consideration to this family's opinion.

Sincerely,

Sheila Martin
