CALFED Bay-Delta program  
1416 Ninth Street, Suite 115  
Sacramento CA 95814  
Attn: Mr. R. Breitenbach

I am interested in any estimate your team has made of the effect on fish in the Delta of reduced diversions due to the water recycling element of the common program. In particular I would be interested in any benefits that accrued as a result of replacing water supplies diverted from the Delta, as well as for reductions in water supplies diverted from upstream sources such as Hetch-Hetchy and the Mokelumne. I was unable to identify any specific effects reported in the technical appendix.

Sincerely,

Wendy L. Illingworth
