CALFED:

ADOPTION OF THE ENCLOSED WATER CONTROL SYSTEM THROUGHOUT CALIFORNIA WILL RESULT IN AUTOMATIC FLOOD CONTROL AND AS MUCH AS 25% INCREASE IN OUR SUMMER RIVER FLOWS. NO WORK ON OUR ALL SEASON STREAMS OR RIVERS IS REQUIRED.

TRADE OFFS:

OPEN THE DOOR FOR ANY STATE WIDE CALIFORNIA WATER DISTRICT TO INSTALL SMALL EARTHEN DAMS IN ANY COUNTY ON DRY CREEKS. LETS SAY A COAST RANGE WATER DISTRICT INSTALLS "SLOW-FLOW DAMS" IN EL DORADO COUNTY TO CONTROL A SPECIFIC SQUARE MILE AREA EQUALLING CONTROL OF 500 ACRE FEET. THAT WATER DISTRICT CAN NOW APPLY FOR A PERCENTAGE OF THAT WATER FOR THEIR DISTRICT.
