Comments: Use Scientific Research to base your decisions  
If any Ag. land is purchased I suggest it be a voluntary transaction  
I support the concept of additional water storage for this state  
yet I am concerned that Agriculture needs may not be  
met for the continuance to provide high Quality food  
at reasonable prices to our consumers. Please don't be  
short sighted on the economic ~~impact~~ profound impact  
this may have on the whole economy.  
Also why isn't U.S.D.A. and C.D.F.A included in your  
CALFED Agencies
