RE: Comments on CALfed EIS/EIR

Dear Mr. Snow,

Building new dams and canals is a short-sighted, ineffective approach to restoring the Sacramento-San Joaquin Delta. I urge you instead to expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies.

I support your proposed restoration objectives for Central Valley stream flows and riparian habitat as well as all sensitive, threatened, and endangered species.

Sincerely,

Dr. Mha Atma Singh Khalsa
