The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments.

If your comments are related to a CALFED Public Workshop or meeting, what was the date of that event? _____

Comments: I agree ^{with} the goal of "fixing" the Delta. Water storage should at all times be considered with our ever increasing California population. Increasing the size of Lake Shasta, developing a Sates reservoir and looking at tributaries such as Cache Creek that can use old gravel pits for groundwater recharge are all means to develop a water supply that California needs for a very demanding future.
