

JUN 12 1998

Public Input

Date: 6/9/98

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments.

If your comments are related to a CALFED Public Workshop or meeting, what was the date of that event? _____

Comments: I support long term incremental implementation of the Calfed program. There should be early investments in system capacity where there is potential benefit to the environment & agricultural waters users.
Water supply, water quality, levee improvements, & environmental concerns must be implemented in a balanced integrated manner to ensure that all interests get better together. Agriculture shouldn't be leveraged to reach conservation goals, ~~etc~~ transfer water or deal with drainage issues before we get necessary benefits.
