Lester Snow
Executive Director
Cal/Fed Bay Delta Program
1416 Ninth Street
Sacramento, CA

Re: Cal/Fed

Dear Director Snow:

Please select a "Smart Alternative" based on **conservation** and restoration. This alternative would: 1. Include conservation programs; 2. Maximize **water efficiency** before considering new dams, reservoirs or canals; 3. Restore California's birds, fish and especially the **wetlands**; and 4. Restore and protect **watersheds and groundwater basins**. Conservation should be implemented before costly new dams and reservoirs are built.

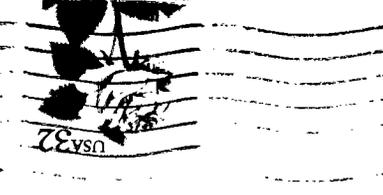

Please let me know what conservation actions you are taking on this matter.

Sincerely,

Margaret A. Kathrein
