CalFed Bay-Delta Program
1416 Ninth St.
Sacramento, CA 95814

To whom it may concern:

I am a small business owner and concerned citizen of Plumas County. I am worried about the CalFed process, for the following reasons:

- 1) We must have our surface and ground-water rights, as well as our county point-of origin rights protected as part of the process;
- 2) CalFed must increase the storage capacity of water, eg. by raising Shasta Dam or building off-stream reservoirs, before considering building any canal to ship through.

Plumas and Sierra Counties' economies are heavily dependent on agriculture, and the above points must be addressed in any plan that seeks to *really* solve California's water problems. The importance of agriculture in our counties can not be placed behind the needs of Southern California simply because we are severely outnumbered.

Sincerely,

Kathy Pricer
