Give Us Your Input!

JUN 15 1998

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Comments:

I am taking time to submit comments because the outcome of this process has the potential to adversely affect my livelihood as an almond and rice farmer in Butte County. None of the currently proposed alternatives afford us the protections we need for our ground and surface water supplies. You should also include stronger area of origin protections to protect our historical water supply. To meet the needs of our growing state you must emphasize and guarantee increased off stream storage north and south of the Delta. I recognize the need to protect the Bay-Delta however we also need some protections.

Use additional sheets if necessary.

Please clip out this form, fold, staple and return to:

CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Sincerely,
Ed McLaughlin

All comments will be immediately forwarded to CALFED technical staff and comments relating to the draft programmatic EIS/EIR will be addressed in a response to comments document.
