Comments:

I am an orchardist and cattle rancher in Butte County. I produce olives, peaches, apricots and citrus on a family owned operation. I also run 180 pair of commercial cattle.

Although optimistic about the CalFed process, none of the current alternatives address all my concerns.

First and foremost, there must be increases in the storage capacity of water.

Secondly, surface and ground water rights must be protected and strengthened.

As soon as these two issues are guaranteed, I look forward to fully supporting the CalFed process.

Use additional sheets if necessary.
