01200

Public input from thousands of Californians has already helped shape the CALFED Bay-Delta solution. However, there are many significant issues that still need to be decided. Please fill out this form and tell us what you think is important when developing an equitable, feasible and durable Bay-Delta solution.

Comments:

I am a rancher in Butte County. I am involved in a farming operation and we produce orchard and field crops. We utilize both surface and ground water in our farming operation. I have two basic concerns: CALFED must protect surface and ground water rights. Farmers in Butte County are particularly concerned that area of origin water rights be strengthened and protected. Second, CALFED must increase the storage capacity of water. Projected water demand exceeds available water supply. The only way to satisfy the projected demand is through the development of more storage capacity.

Use additional sheets if necessary.

Please clip out this form, fold, staple and return to:

CALFED Bay-Delta Program
