Mr. Lester Snow
Executive Director
CalFed Bay/Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

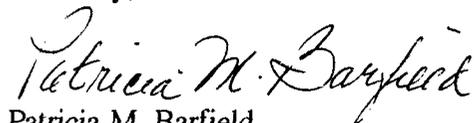

Dear Mr. Snow:

Many of us are concerned about the CalFed Bay/Delta Program. We would like to see a program that will emphasize conservation and economic incentives for use of our water. Our watersheds and groundwater basins need to be restored. Our wetlands, which have proven to be natural water cleaners, must be kept and expanded. California already has problems with fish and this program, if done right, could help with returning the fish to our streams and bays.

There are ways to improve the water use without resorting to dams and another Peripheral Canal. The future of California is at stake.

These comments should be entered in the Draft EIR and Statement.

Sincerely,

Patricia M. Barfield
