Mr. Lester Snow
Executive Director, CalFed Bay/Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

Dear Mr. Snow:

This is to urge you to push for conservation over new dams or peripheral canals. We can, and should, be learning to live wisely with the water we have. Only this way can we save the natural resources and environment that allows for diversity and sustainability of many life forms. Our children will need these resources; they are not ours to use up.

When commenting on the Draft Programmatic Environmental Impact Report and Statement, I hope that you will press for restoration of our bays, deltas and wetlands, watersheds and groundwater basins.

Thank you for your consideration.

Sincerely,

Lois S. Brubeck
