Sacramento, CA 95814

Subject: Comments regarding Cal-Fed Bay Delta Program.

Attention: Rick Breitenbach:

Because of Cal-Fed huge water plan with levee and other improvements being planned for the Delta Area, the City of Isleton is very much concerned as what will happen to our Island. The City of Isleton is situated on Brannan-Andrus Island, the most populated Island in the Delta and any final plan would have a great impact on our city if not addressed properly.

Our City is in the process of updating its General Plan and will be addressing the Cal-Fed issue beginning this month, comments would be forthcoming to Cal-Fed after we take up this issue.

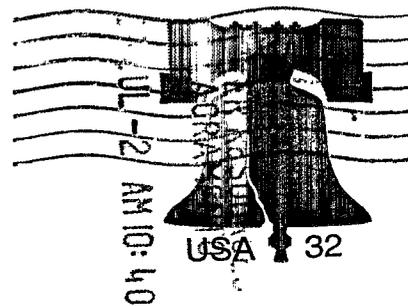

Any information on progress reports, if any would be greatly appreciated.

Sincerely,

John Perez
Mayor Pro-tem
