June 29th 1998

Gentlemen:

We want to express our opposition to the lowering of Butte County's ground water.. There are 14,000 domestic wells here in Butte county. For a lot of us there is no way to hook up to a water co. If our wells go down, our property is a total loss.

Why should we pay for the miss use of the rest of the state...

Build the Alburn Dam, and build some in the L.A. area and it will take care of some of the problem..

After all, if we have the money to send to Africa and Red China and every other country in the world, we should have the money to built needed dams all over California.

Thank You,

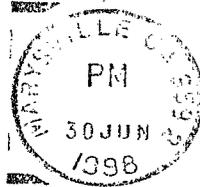

Mickey Duzdevich
