Re: CALFED Bay-Delta Programs

I would like to register my opposition to the lowering of Butte County's domestic well levels by taking our water for the Delta, the San Joaquin Valley and Southern California. The lose to the agricultural communities is very great. Also, subsidence could be a real, irreversible problem.

I do not think it is right to degrade our environment and economy to enhance the environment and economy of another area.

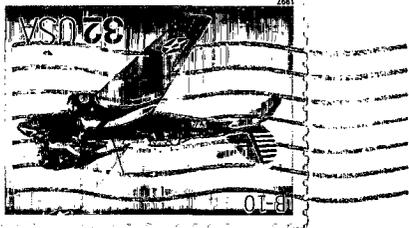

Please consider investigating the possibilities of more dams and off-stream storage of water.

Thank you for your consideration.
