Dear Mr. Snow,

I would like to take this opportunity to express my support for the "Smart Alternative" as CalFed's focus for Bay/Delta restoration. This alternative, based on conservation and restoration, offers California the best plan to do the following:

- *ensure strong conservation programs and economic incentives to use our water more efficiently;
- *maximize water efficiency before even considering costly new dams and reservoirs or a Peripheral Canal;
- *restore and protect our watersheds and groundwater basins;
- *restore California's fish birds, wetlands, rivers, delta and bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely,

Scott Stevenson
