CITY/STATE/

Dear Executive Director Snow:

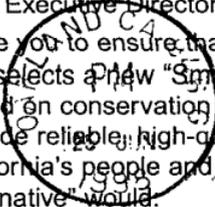

I urge you to ensure that CalFed puts forth  
and selects a new "Smart Alternative"  
based on conservation and restoration to  
provide reliable, high-quality water for  
California's people and wildlife. The "Smart  
Alternative" would:

- \* ensure strong conservation programs and economic incentives to use our water more efficiently;
- \* maximize water efficiency before even considering costly new dams and reservoirs or a Peripheral Canal;
- \* restore and protect our watersheds and groundwater basins;
- \* restore California's fish, birds, wetlands, rivers, delta and bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely,

*Represent people & plants - not agri-business!*
