

NAME ALLAN M. KILKKA
ADDRESS 23257 WELBY WAY
CITY/STATE/ZIP WEST HILLS CA 91307

Dear Executive Director Snow:

I urge you to ensure that CalFed puts forth and selects a new "Smart Alternative" based on conservation and restoration to provide reliable, high-quality water for California's people and wildlife. The "Smart Alternative" would:

- * ensure strong conservation programs and economic incentives to use our water more efficiently;
- * maximize water efficiency before even considering costly new dams and reservoirs or a Peripheral Canal;
- * restore and protect our watersheds and groundwater basins;
- * restore California's fish, birds, wetlands, rivers, delta and bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely, Allen M. Kilkka

JUN 29 1998 I am concerned about our watersheds and wetlands. Please 'Help'!
