Sacramento, CA 95814

Dear Executive Director Snow:

I urge you to ensure that Calfed crates and selects a "Smart Alternative" (a fourth alternative) based on conservation and restoration to provide sample and high quality water for California's families, wildlife, farms, and businesses into the 21st century. The "Smart Alternative" would:

-ensure effective conservation programs and economics incentives to use out water more efficiently.

-maximize water efficiency before even cosidering costly new dams, reservoirs, and canals.

-restore and protect our watershed and groundwater basin for high-quality, reliable water for people and wildlife.

-restore California's fish, wetlands, rivers, delta and bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Sincerely,
Monique Moua
