

Memorandum

Date: October 6, 1998

To: CALFED Agency Reviewers

From: Rick Breitenbach, Assistant Director
CALFED Bay-Delta Program *Rick Breitenbach*

Subject: CD-Rom Version of Supplement to Main Document

Enclosed you will find two different CD-Rom versions of the September 30, 1998 Draft Supplement to the Main Document. CALFED is considering putting the Revised Draft EIS/EIR on a CD and would appreciate your opinion on the effectiveness of these two trial CDs. After reviewing the CD's, we would like your thoughts:

- Which CD do you find easier to work with?
- Were you able to navigate through the CD easily?
- What can we do to make them more user friendly?
- What type of instructions should we provide when we send the CD to the public?
- Any other issue about the CD you'd like to bring to our attention.

The file needs to be viewed with Adobe Acrobat Reader 3.01. This software is free to use and is available from either the CD or can be accessed at www.adobe.com/acrobat. The Adobe Acrobat Software only needs to be installed one time.

Please refer to the following table on how to install Adobe Acrobat Reader 3.01 provided on the Image Dox CD and the Paperless Imaging Services CD. The table also includes instructions on how to run the CD using the Adobe Acrobat Reader 3.01 software.
