

Your new *Handbook* pages are here!

The Sacramento River Advisory Council is pleased to send you these updates to your *Sacramento River Conservation Area Handbook*. Here is all you need to do to be the proud owner of an up-to-date *Handbook*:

1. Your new pages are dated January 2000. Please replace the old pages in your *Handbook* with the enclosed pages according to the instructions on the back of this sheet. Since the *Handbook* is a "living document," you may periodically be mailed additional changes in the future.

The information in Appendix E, Directory of Flood Control Officials; Appendix F, Funding Opportunities for Watershed Programs and Projects; and Appendix G, Cost Share and Assistance Programs becomes outdated so quickly, we have decided that it is best to keep them separate from the *Handbook*. You are welcome to keep the information, however, and to contact the organizations listed at the beginning of those sections to get updated materials.

2. Mail in the enclosed form to ensure that you are sent future updates.

INSTRUCTIONS

sacramento River Conservation Area Handbook - January 2000

Take out these old pages:	Add these enclosed new pages:
title page	title page
	Dedication to Bob Bosworth (Add right after title page)
