Comment

Date 7/28/99

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

To Whom it May Concern:
It is important to our future that more
fresh water flow through the Bay to restore
habitat and the environment. It is essential that
we implement more aggressive water conservation
practices before CALFED decides if it should build
more dams and expands existing reservoirs.
These actions will cost taxpayers money and further
degrade the Bay-Delta ecosystem.
