

CALFED
BAY-DELTA
PROGRAM

Public Comment

Date 5/2/99

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

To Whom it May Concern:
More fresh water needs to flow through the Bay to restore habitat and the environment. It makes more economic sense to pursue significant water conservation practices before deciding to build new dams & expand reservoirs. Agribusiness benefits from more dams and reservoirs - while the ecosystem and taxpayers suffer the costs. Not only should agribusiness pay for any new construction, it should ~~not~~ invest in water efficiency practices to avert that path.
