The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Until your preferred plan has a major change to include a closed system of transportation of high quality water across the Delta to the pumping plant for bay, I will oppose any state wide bond to finance the Cal Fed plan. Both South San Francisco Bay Area and Southern California need to have higher quality water than what currently is pumped by the state now. + Agriculture need more storage projects.
