Lester Snow  
Executive Director  
CalFed Bay/Delta Program  
1416 Ninth Street  
Suite 1155  
Sacramento, CA 95814

Dear Executive Director Snow:

I am disappointed in your Bay/Delta Plan. I believe it includes too many dams and not enough water conservation and water quality control. We need more fresh water flows, not less. Dam construction is very costly, destroys habitat, and is not even the best method for flood control, as recent floods have demonstrated. I also oppose the expansion of the canal system, at least in the first phase of your program.

Please enter these comments into the formal record for your DEIR.

Sincerely yours,

*Mariquita West*

Mariquita West, M.D.
