PROGRAM

# Public Comment

Date Sept. 22, 1999

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

More water storage will be necessary in order to accommodate growing state population, as agriculture cannot afford to lose any water to environmental causes as population increases. Conservation of water has been accomplished in past 25 or 30 years, but additional conservation cannot be expected.
