

CONTACT MEMO

Date: October 9, 1996
Contact: Peter Hughes, General Manager, Natomas Mutual Water Company
Setting: Meeting at Natomas Mutual Water Company

Peter and I met to discuss CALFED's conjunctive use program. The following is a summary of our meeting.

- 1) Groundwater had not been explored historically explored in the district because of abundant surface water rights.
- 2) Eighty-four pumps control water distribution, including five diversions on Sacramento River.
- 3) Natomas Mutual controls two groundwater wells.
- 4) Natomas is interested in a pilot or demonstration conjunctive use program that would reduce consumptive use.
