

OFFICE MEMO

To: William Bennett Raymond Hart Robert Potter David Kennedy	DATE: November 20, 1997
FROM: Naser J. Bateni, Chief Northern District	SUBJECT: Off-stream Storage Workshop

RWB for NJB

On Thursday, November 6, 1997, CALFED, Department of Water Resources, and Tehama County Flood Control and Water Conservation District sponsored an Off-stream Storage Workshop at the Red Bluff Community Center. The purpose of the meeting was to discuss work the Department is just beginning with Proposition 204 funding to investigate the feasibility of "off-stream storage upstream of the Delta that will provide storage and flood control benefits in an environmentally sensitive and cost-effective manner."

The meeting was intended to inform the public about the activities associated with this investigation, and about 150 people attended. Presentations by CALFED and DWR staff were followed by about an hour of comments and questions from the public.

Summaries of staff presentations and an edited transcript of the question and answer period are enclosed. If you have any questions, please call me at (530) 529-7342 or Glyn Echols, Project Coordinator, at (530) 529-7324.
