

PROPOSITION 204 OFF-STREAM STORAGE EVALUATION

Naser J. Bateni - Department of Water Resources

Proposition 204 Requirements

Proposition 204 (The Safe, Clean, Reliable Water Supply Act of 1996) requires DWR to investigate the feasibility of off-stream storage upstream of the Delta that:

- provides storage and flood control benefits
- is environmentally sensitive and cost-effective

Alternative Reservoir Sites

- Sites Reservoir
- Colusa Reservoir
- Thomes-Newville
- Redbank

Potential Sources of Supplies

Surplus flows from:

- Local Streams
- Colusa Basin Drain
- Sacramento River

Benefit to Sacramento Valley Communities

- Flood Control
- Water Supply
- Recreation Opportunities

PROPOSITION 204 OFF-STREAM STORAGE EVALUATION

We will not evaluate:

- Reservoir Yield Allocation

We will evaluate:

- Engineering
- Environmental
- Geological / Seismic
- Economic
