

Umbrella Team Agenda
April 18, 1997
9:00 to 3:00
Room 1412, Resources Building
1416 Ninth Street, Sacramento

Meeting Objectives:

- To standardize stressor terminology between geographic technical teams and link it to the ERPP,
- To review and evaluate the priorities assigned to the stressors by the geographical technical teams across the areas, and
- To review and evaluate the actions identified by the geographic teams.

9:00 Welcome

Review agenda, definition of consensus, and groundrules

9:10 Review process used by geographic technical teams

9:20 Present process to be used in meeting to meet objectives

Discuss meeting objectives

9:50 Standardize terminology

We have a "strawman" which groups the various stressors identified by the geographic teams and links them to the ERPP.

10:30 Break

10:45 Complete stressor terminology discussion and evaluate stressor priorities

Where the technical teams prioritized stressors, they were normalized and then converted to a rank of 1 to 10. We will review these rankings to ensure that they are an appropriate reflection of what the teams did and to evaluate them as a whole.

12:00 Lunch

12:45 Continue with stressor priorities

1:30 Evaluate the types of actions and the priorities assigned to them by the technical teams
Are there additional types of actions? Are any of the types of actions listed technically inappropriate?

2:30 Criteria that will be used to evaluate the biological effectiveness of proposed actions

2:50 Next steps

3:00 Adjourn
