

Levee System Integrity Program
Long-Term Goals
DRAFT

1. *A) Rehabilitate Delta Levees To PL 84-99 Standard. The Delta Is defined As That Contained In AB 360 Without The Suisun Marsh*
B) Implement Special Improvement Projects
C) Integrate Levee Improvements With Ecosystem Restoration Where Appropriate
2. *Develop Long-Term Funding Strategy For Maintaining And Rehabilitating Delta Levees And Channels*
3. *Refine And Implement Levee Associated Habitat Mitigation Requirements (Permit Streamlining)*
4. *Develop And Implement A Long-Term Delta Subsidence Control Plan*
5. *Improve The Existing Emergency Response System For The Delta Including The Development Of SEMS/ICS Organization And Implementation Criteria, Emergency Material Stockpiles, Standardized Contracts, A Delta Focused Multi-Agency Emergency Response Team, And A Consistent, Well Defined Disaster Assistance Program For The Delta From OES, FEMA, And The COE.*
6. *Quantify Seismic Risk And Take Appropriate Action*
7. *Develop A Comprehensive Program For The Beneficial Reuse Of Dredged Material, Including The Establishment Of Water Quality/Sediment Testing Protocol, Cost-Sharing Arrangements, And A Delta Dredge Material Management Office.*
