

CALFED BAY-DELTA PROGRAM

Office Memorandum

Date: July 8, 1997

To: Program Team

From: Victor *UWA*

Subject: Identification of Delta Levee System Integrity Common Program Elements

Attached, for your review, is an identification of Delta Levee System Integrity Common Program elements. The Ecosystem Restoration Program Plan will address Delta Levee Special Habitat Improvements, Levee Associated Habitat, Delta In-Channel Islands, and Beneficial Reuse of Dredge Material elements formerly included as part of the Levee Common Program. In addition, the conveyance/storage elements of the alternatives will address the Delta Recreation element formerly included as part of the Levee Common Program. The Delta Levee System Integrity Common Program will be composed of the remaining elements identified in the attached materials. Development of these elements are in progress and a detailed description of each element will be provided as they become available.

Please provide your comments by noon Friday July 11, 1997 in order that I can review and make necessary changes prior to distribution to the Program Coordination Team. A schedule for distribution and review is provided below for your information.

Proposed Timeline: 7/8/97 Distribute for Program Team review.
Comments due by 7/11/97.
