

Criteria To Determine Exceedances

- **Central Valley or San Francisco Bay Water Quality Control Plan objectives (including narrative objectives), U.S. EPA Water Quality Criteria, or California Department of Fish & Game Hazard Assessment Criteria**
- **California Department of Health Services Public Health Advisories**
- **National Oceanic & Atmospheric Administration sediment guidelines and U.S. EPA sediment quality criteria**
- **National Academy of Sciences guidelines**
- **Inland Surface Waters and Enclosed Bays & Estuaries plans (if adopted for California)**
- **Other criteria developed by regulatory bodies in response to local water quality problems (i.e., U.S. EPA Great Lakes standards, Selenium standards in San Francisco Bay)**
