Hi Sarah-
I just got a voicemail from Joe Karkowski (sp?) from EPA regarding some of the watershed information I collected from him last week. Apparently something was lost in the translation regarding the San Joaquin selenium TMML (total maximum monthly load) analyses that we reported on, and we didn't get everything right. He suggested that I call him back so he can clarify (he wasn't mad or anything), but I think it's better if you (or Carol) follow up at this point.
Feel free to call/q-mail me if you have questions, but otherwise I will assume that you will take care of this.
I hope everything went well at the big meeting.
Simon
