For your reference, following are two articles regarding the latest developments on health effects associated with drinking water. As we discussed on the telephone this afternoon I have contacted Drs. Raymond Neutra and Shanna Swan, contributing authors of the drinking water studies, to request that he or she present this information to the Water Quality Technical Group on February 25, 1998.

This afternoon Ms. Swan indicated that she will check with her superiors at the California Department of Health Services to obtain permission to present at the February 25, 1998 meeting. I will contact you as soon as I hear from her.

Thanks!

Sarah
