To: Phil Woods, USEPA

Fax No: 415/744-1078

From: Tanya Matson

Reference:

Subject: CALFED Water Quality Program

No. of Pages: 14
(including cover)

As I indicated during our telephone conversation on this date, Judy Heath has requested that the CALFED Water Quality Targets for Parameters of Concern be updated to include the human health criteria in the USEPA's California Toxics Rule. In addition, she requested that the updated table be forwarded to your attention for your review. As I mentioned during our conversation, I will be out of the office until late afternoon attending CALFED Water Quality Program meetings. Perhaps if you review the table in the early morning, I will be able to make any changes prior to leaving to attend the meetings.

Thank you in advance for your prompt review of the Water Quality Targets Table. You may fax any changes or comments to (916) 924-9102 or you may call me directly at (916) 921-3509.

cc: Judy Heath, CALFED Bay-Delta Program (via facsimile)
