Subject: Table Package for Review and Draft Cover Memo

Michael,

Attached is the text for a draft cover memo to accompany the Conservation Strategy Data Base and Example Species Table review package. We anticipate distributing this package to the Ecosystem Restoration Work Group for review and comment within the next few weeks. Feel free to edit the draft cover memo as needed for your use in distributing the package to the Acquaintances of the Conservation Strategy group.

I will drop off a copy of the review package at your office later today (the tables are not e:mailable). Please call if you have any questions.

Tiki Baron
