Bellory and Scott

I'm not sure who needed this review or for what purpose but here is a compilation of our staff reviews. Bob wisely FAXed copies of the species lists for each reservoir site to you earlier today. Perhaps in the future, we can better refine what we expect to get from review efforts and for what purpose.

I would not use anything but project description and it sounds like some of that needs to be updated as well.

Sorry but the file is too long to import into this e mail. We can read attachments at the computer Bob and I use by saving to the hard drive. Please check with Sergio. I'll try to split the file and resend.

The following is an attached File item from cc:Mail. It contains information that had to be encoded to ensure successful transmission through various mail systems. To decode the file use the UUDECODE program.
