At this morning's meeting, I was asked to put together MSCS text which would describe the MSCS studies and surveys, and to prioritize them. Attached is the draft section of the MSCS on research and priorities.

Earlier today I sent out draft text to a few CALFED, DFG, and NMFS staff but didn't receive any response (presumably another e-mail problem). Please provide your inputs to me by early tomorrow morning so that this text can be sent to Jones and Stokes for inclusion in Chapter 5 of the MSCS. Thanks.

As discussed at Tuesday's State and Federal Small Group meeting, there is a need to come to consensus on MSCS conservation measures that were not anticipated by CMARP as monitoring or research actions.

A meeting has been scheduled for Thursday, 27 May from 8:00-10:00 am in room 1147C1. Please let me know as soon as possible if we need to arrange for a conference line.
