

Water Management Strategy/Environmental Water Account*Framework*

- I. Objective
 - A. Scope of Project (time/geography)
 - B. Basis for Need
- II. Establishment
 - A. Assets
 - 1. Operational Changes
 - 2. Water Acquisitions
 - 3. Storage Acquisitions
 - B. Asset Development Tasks
 - 1. Acquisition
 - 2. Environmental Documentation
 - C. Agency Responsibility for Asset Development
 - 1. Lead Agencies' Tasks
 - 2. Cooperating Agencies' Tasks
 - D. Financing Options
 - 1. Estimate of Costs
 - 2. Possible Sources
- III. Operations
 - A. Objectives
 - 1. Fishery Actions
 - a. Export Pumping Limits
 - b. Instream Flows
 - 2. Water Supply for Exporters (goal ??)
 - B. Allocation of Assets
 - 1. Distribution to EWAWater Supply
 - 2. Rationale
 - C. Decision Making
 - 1. Standards for Decisions (i.e. when to use assets)
 - 2. Decision Responsibility (i.e. who decides)
- IV. Transition to Post-ROD Operation
