

New-term EWA Implementation Issues

Element / tool	Costs	Regulatory Control	Biological Risks	Implementation Time (earliest)	Reliability of Accounting	Contracting Parties	Implementation Critical Path
Flexible EI ratio	Power, no new facilities	SWRCB	DFG, FWS, NMFS	now	good	USBR, DWR, EWA agent	Accounting and other assurances, linkage to storage, protection terms: SDWA, fishery agencies
Joint Point of Diversion	Power, no new facilities	SWRCB	DFG, FWS, NMFS	Pending decision on Phase 6 SWRCB B-D hearings (6 months?)	good	USBR, DWR, EWA agent	Accounting, linkage to SWRCB B-D P6, linkage to storage, protection terms: SDWA, fishery agencies
8,500 cfs export capacity at Banks (Apr-Oct)	none, possibly dredging or mitigation for SDWA	COE, indirectly FWS thru. barriers	DFG, FWS, NMFS	Alternatives are being developed by CALFED (0-2 yrs., depending on dredging and/or barriers need)	good	USBR, DWR, EWA agent	Accounting, linkage to storage, protection terms: SDWA, fishery agencies
Spot purchases	?	?	?	now	?	?	Streamline approval process, third party impacts
South of Delta Lease	?	?	?		?	?	
San Luis Reservoir storage	Power, no new facilities	SWRCB - place of use	DFG, FWS	now	good	USBR, DWR, EWA agent	
Semitropic GW	Power, capital if program is expanded	SWRCB (place of use)	DFG, FWS	now, if existing unused storage and extraction facilities are used.	good, conj. use is already used	DWR, EWA agent, Semitropic stakeholders	Place of use issues, non-SWP contractor use of facilities and wheeling fee/availability
