

**DELTA SMELT WORKSHOP**  
**1 October, 1998**  
**Energy Commission, Hearing Room A**  
**1516 Ninth Street, Downtown Sacramento**

<u>Time</u>	<u>Subject</u>	<u>Speaker</u>
0800-0810	Welcome/Introduction	Larry Brown
0815-0830	Context for Workshop	Dale Sweetnam
0830-0900	Delta smelt diet	Jenni Lott and Matt Nobriga
0900-0930	Preliminary results on the age and growth of delta smelt from different areas of the estuary using otolith microstructure analysis	Lenny Grimaldo
0930-1000	Shallow water sampling of larval delta smelt: a review of first year results	Geir Aasen
1000-1015	<b>Break</b>	
1015-1035	Delta smelt environmental requirements and tolerance limits	Joe Cech
1035-1055	Delta smelt swimming effects of environmental variables	P.S. Young
1055-1115	Delta smelt swimming performance and behavior in a fish treadmill	Tina Swanson
1115-1145	Effects of inland silverside and other factors on delta smelt	Bill Bennett
1145-1215	Delta smelt culture	Joan Lindberg
1215-1315	<b>Lunch</b>	
1315-1345	Particle Tracking Model	Tara Smith
1345-1415	CMARP Conceptual Model, Monitoring and Research	Bill Bennett
1415-1430	<b>Break</b>	
1430-1500	Delta smelt recovery	Peter Moyle/Dale Sweetnam

1500-1630 Panel Discussion: Delta Smelt Life History:  
What have we learned, what do we need to learn?  
Moderator: Zach Hymanson

1630 Thank you and goodbye Larry Brown

**DELTA SMELT WORKSHOP**  
**2 October, 1998**  
**Main Conference Room, Bay-Delta CDFG Office**  
**4001 North Wilson Way, Stockton**

0900-0930 Review of progress on 1996 research Dale Sweetnam  
agenda

0930-1030 Informal review of ongoing and proposed Project leaders  
delta smelt research

1030-1045 Break

1045-1200 Re-evaluate and reprioritize the research Group  
agenda
