

1635

Game X Approach

- Game 5 Baseline
- Sharing capacity with EWA - half of expanded Banks
- Exporting in high flows - wet years
- Improving river flows in from fall through spring of dry years.
- Historic demands rather than 1995 demands, using 1.05 times historical demands.

Notes to Year: **1993**

October	
November	
December	
January	
February	
March	Release Oroville and Shasta water to fill in trough in outflow, thus picking up the water in San Luis EWA account.
April	
May	
June
